SUMMARY

Experienced Web Developer with 4+ years of expertise in architecting and implementing scalable web applications using PHP, Laravel, CodeIgniter, JavaScript/jQuery, and MySQL. Specialized in e-commerce solutions, with a strong track record of leading projects, managing development teams. Passionate about performance optimization, secure coding practices, and enhancing user experience. Adept at collaborating with cross-functional teams to develop robust, scalable, and efficient web applications.

EXPERIENCE

PHP Developer (Freelance)
November 2024 – Present
- As a freelancer, I have successfully developed and maintained web applications for diverse sectors, including sports and food delivery, using Laravel and other modern technologies.
- Notable projects include City Soccer FC, a platform for managing soccer events and ticket bookings, and Taco-Sur, a specialized food delivery app focused on tacos, burritos, and catering services. In both projects, I designed and implemented secure, user-friendly systems for order management, real-time tracking, and seamless payment integration.
- Additionally, I optimized database performance, developed APIs for mobile applications, and ensured scalable, efficient backends to enhance user experience and operational efficiency.

Key projects

- **City Soccer FC (Laravel)**
  - Developed and maintained City Soccer FC, a web application built with Laravel for managing soccer events and ticket bookings for local football club matches.
  - Implemented a secure and user-friendly booking system, real-time match schedules, and seamless payment integration.
  - Optimized database performance, developed APIs for mobile applications, and ensured a scalable backend to enhance user experience and operational efficiency.
  - **Skills:** PHP · Laravel · jQuery · JavaScript · Ajax · MySQL · HTML5 · Bootstrap · Cascading Style Sheets (CSS) · REST APIs · API Development · Git

- **Taco Sur (Laravel)**
  - Developed and maintained Taco-Sur, a specialized food delivery platform focused on tacos, burritos, chips & dips, as well as group orders and catering services
  - Designed and implemented a seamless order management system, real-time tracking, and secure payment integration

- o Built and optimized APIs for mobile applications, enhanced database performance, and ensured a scalable, efficient backend to deliver a smooth user experience.
- o **Skills:** PHP · Laravel · jQuery · JavaScript · Ajax · MySQL · HTML5 · Bootstrap · Cascading Style Sheets (CSS) · REST APIs · API Development · Git

PHP Developer (Laravel, Codeigniter)
Webbrains Technologies Private Limited, Vadodara.
July 2021 – October 2024

- Experienced in architecting and implementing scalable web applications using PHP, Laravel, Codeigniter, JavaScript/jQuery, and MySQL, with a strong focus on e-commerce and fintech solutions.
- Skilled in leading projects, managing development teams, and delivering high-quality solutions on time.

Key projects

- **Mymofosmile (Laravel)**
  - o Developed and upheld an eCommerce platform using PHP, Laravel, WooCommerce, and Shopify, integrating EasyPost and Australia Post for seamless shipping, Stripe for secure payments, and a POS system for partner transactions.
  - o Built APIs to support mobile applications, ensuring efficient backend communication.
  - o **Skills:** PHP · Laravel · jQuery · JavaScript · Ajax · MySQL · HTML5 · Bootstrap · Cascading Style Sheets (CSS) · REST APIs · API Development · Git · Stripe Payment gateway

- **CryptoPe App (Laravel)**
  - o Developed and sustained the CryptoPe App using PHP and Laravel, enabling crypto buying, selling, QR-based payments using crypto currencies, withdrawals, and deposits. Integrated BitGo for secure wallet management, Onmeta for crypto transactions and customer KYC, Razorpay for seamless payments, and Signzy for merchant KYC verification.Calibrated scan fields, offsets, and error evolution within machine systems.
  - o **Skills:** PHP · Laravel · JavaScript · jQuery · Ajax · MySQL · Bootstrap · HTML5 · Cascading Style Sheets (CSS) · Git · CryptoAPI · Third Party API Development · REST APIs · Razorpay

- **We Supply (Laravel)**
  - o Developed and maintained We Supply, an e-commerce platform built with Laravel for selling pharmacy products, including medicines, skincare items, and health essentials. Implemented a seamless shopping experience with a user-friendly product catalog, secure payment gateway integration, and an efficient order management system.
  - o Optimized database performance and ensured a scalable backend to enhance user experience and streamline business operations.
  - o **Skills:** PHP · Laravel · JavaScript · jQuery · Ajax · MySQL · Bootstrap · HTML5 · Cascading Style Sheets (CSS) · Git · Moneris Payment Gateway

- **Santani Steels (Codeigniter)**
  - o Developed a CRM system for the steel business using PHP and Codeigniter, enabling efficient management of leads, orders, inventory, and customer interactions .
  - o Implemented automation for sales tracking, invoicing, and reporting to streamline business operations.
  - o **Skills:** PHP · Codeigniter · JavaScript · jQuery · MySQL · Bootstrap · HTML5 · Cascading Style Sheets (CSS) · Git · Ajax

PHP Developer (SuiteCRM)
Svaapta It-Ally Solutions Private Limited, Vadodara.
September 2020 – June 2021

- Worked on two major projects, focusing on the ERP System (In-house) and Tutor Doctor.
- Utilized SuiteCRM (PHP), JavaScript, jQuery, and AJAX to develop and maintain core features, enhancing both functionality and user experience.
- Collaborated with cross-functional teams to ensure seamless project execution and timely delivery of high-quality solutions.

Key project

- **Tutor Doctor (SuiteCRM)**
    - Tutor Doctor is a personalized tutoring service that provides one-on-one, in-home and online tutoring for students of all ages. It offers customized learning plans across various subjects, helping students improve their academic performance and confidence.
    - **Skills:** PHP · SuiteCRM · jQuery · JavaScript · Ajax · MySQL · HTML5 · Bootstrap · Cascading Style Sheets (CSS) · Git

Internship Trainee
Svaapta It-Ally Solutions Private Limited, Vadodara.
January 2020 – August 2020

- Gained hands-on experience in PHP, SuiteCRM, HTML/CSS, JavaScript, jQuery, AJAX, Bootstrap, MySQL, and GIT, consistently applying industry best practices.
- Contributed to various IT solutions projects, focusing on web development and enhancing application functionality.
- Strengthened technical skills by collaborating with senior developers on real-world projects, driving innovation, and delivering impactful results.

KEY ACHIEVEMENTS & AWARDS

- **Award - Pinnacle Performer of the Year (2024)**: Received the 'Pinnacle Performer of the Year' award at Webbrains for consistently delivering high-quality web development solutions, demonstrating exceptional problem-solving skills, and making significant contributions to the success of key projects. Recognized for going above and beyond in meeting client needs and achieving outstanding results.
- **Award - Mr. Consistent (2023)**: Received the 'Mr. Consistent' award at Webbrains for consistently demonstrating exceptional reliability, consistently delivering high-quality work ahead of deadlines, and maintaining a strong focus on detail. Recognized for my ability to handle multiple projects simultaneously while maintaining a high level of productivity and ensuring client satisfaction. This award highlights my commitment to excellence, punctuality, and dedication to delivering results that exceed expectations.

TECHNICAL SKILLS

Programming Languages & Libraries
- PHP, HTML, CSS, JavaScript, JQuery, Ajax

Frameworks
- Laravel, Codeigniter, SuiteCRM, Bootstrap

Databases
- MySQL, MongoDB

Operating Systems
- Linux, Windows, MacOS

Third Party Integrations
- Payment Gateways: Stripe, Razorpay, Moneris
- Shipping Platforms & Carriers: Shiprocket, Easypost, Australia Post, StarTrack, UPS, USPS
- Other: Bitgo, Onmeta, Signzy

Other Skills
- Git, Github, Gitlab, Jira Software, Proofhub

EDUCATION

Bachelor of Information Technology
Parul University, Gujarat, India
August 2016 – October 2020

LANGUAGES

- English: Proficient
- Hindi: Proficient
- Gujarati: Proficient

PROFESSIONAL ATTRIBUTES

Full-Stack Development Expertise: Proven ability to architect and develop scalable web applications using PHP, Laravel, CodeIgniter, and SuiteCRM, with a focus on high-performance solutions.

E-Commerce & Fintech Specialization: Extensive experience in building and optimizing e-commerce platforms and fintech applications, integrating secure payment gateways, shipping solutions, and API-driven architectures.

API Development & Third-Party Integrations: Proficient in developing REST APIs and integrating third-party services such as payment gateways (Stripe, Razorpay, Moneris), shipping platforms (Easypost, Shiprocket, Australia Post), and blockchain-based solutions (BitGo, Onmeta).

Project Leadership & Team Management: Experienced in leading projects, managing development teams, and ensuring timely delivery of high-quality, maintainable code while following industry best practices.
